		RAL 9017	Traffic black

Low Opacity Paint has to be applied at least twice.
 Option code S02, S03 or S04 needs to be selected as these options/paint specifications specify multiple layers of paint.

(*)Not available for ATEX Zone21/22. Conductive paint must be applied on ATEX Zone21 and Zone22 motors (as defined by IEC 60079-0 article 7.4) with exception of C5-offshore paint finish, where the cast iron parts are zinc galvanised before the paint system is applied. Conductive paint is not available in all colour shades.

ATEX Zone21 and Zone22 motors must not be re-sprayed!!
