

## DOL (Direct On Line)

Motor wound in STAR or DELTA for Mains Voltage

## STAR/DELTA

Motor wound in DELTA for Mains Voltage

## SOFT STARTER

Motor wound in STAR or DELTA for Mains Voltage

## INVERTER (3ph)

Motor wound in STAR or DELTA for Mains Voltage

## INVERTER (1ph)

Motor could be wound in STAR but usually is wound in DELTA for Mains Single-phase Voltage

Example:

- Mains 230V (1ph)/400V (3ph) 50Hz
  - Motor 230/400V 50Hz
  - Motor in DELTA (for 230V 50Hz)
- Usually up to 3kW (maybe 4kW)
